Docket No.: 006593-1966
Supplemental Amendment and Response - After Final

IN THE DRAWINGS:

Please amend drawing Fig. 62 as shown in red in the attached drawing sheet, where the reference character “3301” is being replaced by the reference character “3501”.

Remarks

The action objected to the drawings on the basis that the reference character "3502" was used to designate both the visible indicia and support surface. A corrected Fig. 62 is submitted herewith. Applicants note that both uses of reference character "3502" in Fig. 62 do in fact designate visual indicia (in one case a number and in the other case spacing lines). However, the reference character "3301" was inadvertently used instead of reference character "3501" to designate the support surface. The proposed amendment to Fig. 62 corrects that error.

Approval and entry of the drawing amendment, and withdrawal of the drawing objection, is therefore requested.

Please contact the undersigned attorney with any questions regarding this response.

Respectfully submitted,
